

## PRODUCT RANGE

### MARIS OMEGA-3 CONCENTRATES

No. 1.1, 10.04.2015

#### Highest Purity, Highest Load: EPA/DHA Concentrates

Maris Omega-3 Concentrates are produced from high quality raw materials, utilizing latest process technology in a flexible and highly efficient production set-up. Products are available in TG (triglyceride) and EE (ethyl ester) form at various concentration levels. The manufacturing plant is one of the very few in the world with FDA cGMP approval, designed to meet international pharmaceutical brands' needs. Key benefits:

- > More than 15 years experience in omega-3s
- > US FDA cGMP and NSF GMP approved facility
- > ISO9001, ISO14001, HACCP certification
- > Oxidation level and contaminants below industry standard
- > Halal and FOS certified products available
- > Standard grades available ex stock Hamburg

	Industry Standard	Maris Concentrates
Peroxide value	$\geq 5$ meq/kg	$\leq 3$ meq/kg
Anisidine value	$\leq 20$	$\leq 10$
TOTOX	$\leq 26$	$\leq 15$
Mercury	$< 0.1$ mg/kg	$< 0.01$ mg/kg
Triglycerides	$\geq 50$ %	$\geq 60$ %

#### Product Range

##### High EPA Concentrates, EE and TG form

Product	EPA	DHA
Maris 7010	70%	10%
Maris 6015	60%	15%
Maris 5020	50%	20%
Maris 4020	40%	20%
Maris 3322	33%	22%

##### High DHA Concentrates, EE and TG form

Product	EPA	DHA
Maris 1070	10%	70%
Maris 2050	20%	50%
Maris 1050	10%	50%
Maris 2040	20%	40%
Maris 1040	10%	40%

Maris 900 API (EE only)      430 mg/g    347 mg/g      US FDA cGMP approved, DMF available
